

## Instructions for Authors

*Journal of Electromagnetic Engineering and Science (J. Electromagn. Eng. Sci.; JEES)* is an official English journal of the Korean Institute of Electromagnetic and Engineering Science (KIEES). The objective of *JEES* is to publish academic as well as industrial research results and findings on electromagnetic engineering and science. The journal covers all aspects of researches and technology related to electromagnetics: Electromagnetic Compatibility/Electromagnetic Interference, Microwave and Millimeter-Wave Engineering, Antenna and Propagation, Electromagnetic Theory, Wireless Communication, Lightwave and Electro-Optics, Materials and Components, Software Defined Radar, Radar, Bioelectromagnetics, and etc.

### I. Copyright and Creative Commons Attribution Licensing

The copyright and the transfer rights of the digital content of published papers and the journal is owned by the KIEES. All published materials are also assigned a Creative Commons Attribution License (<http://creativecommons.org/licenses/by-nc/4.0/>). The journal accepts manuscripts for consideration with the understanding that the manuscript has not been published previously and is not currently under consideration for publication elsewhere, and in addition, that the authors (or their employer, if it holds the copyright) are authorizing the transfer of the copyright to the Institute when the manuscript is submitted. Author should check the copyright transfer conditions and forms at <http://www.jees.kr>.

### II. Research and Publication Ethics

Research published in *JEES* must have followed institutional, national, and international guidelines. For policies on research and publication ethics that are not stated in these instructions, please refer to the *Committee on Publication Ethics (COPE) Guidelines* (<http://publicationethics.org/resources/code-conduct>).

#### 1. Originality and Duplicate Publication

A manuscript submitted for publication in *JEES* should be an original work with technical values. It must not have been previously published and is not under consideration for publication elsewhere. *JEES* assumes that the materials submitted for its publications are properly available for general dissemination for the readership of those publications. It is the responsibility of the authors, not *JEES*, to determine whether disclosure of their materials requires prior consent of other parties and, if so, to obtain it. If an author uses charts, photographs, or other graphics from any previously printed materials, he/she is responsible for obtaining written permissions from the publisher to use them in his/her manuscript. Responsibility for the contents of published papers rests upon the authors, not *JEES*.

#### 2. Conflict of Interest

Authors are required to complete a declaration of conflict of interests. All conflict of interests that are declared will be listed at the end of published articles.

#### 3. Authorship

Authorship should be restricted to those individuals who have met each of the following three criteria:

1) made a significant contribution to the conception and design of the project, or the analysis and interpretation of the data, or other substantial scholarly effort; 2) participated in drafting, reviewing and/or revising the work; and 3) approved the final version for publication. After the initial submission of a manuscript, any changes whatsoever in authorship (adding author(s), deleting author(s), or re-arranging the order of authors) must be explained by a letter to the editor from the authors concerned. The content of this

letter must be acknowledged and agreed upon by all of the authors of the paper.

If you accept the policies on research and publication issued by KIEES, authors must click the response of “The Code of Research Ethics” through online.

### **III. Submission of Manuscripts**

Authors are expected to be members of the KIEES except for some special cases approved by the Editorial Board of KIEES. All manuscripts should be submitted electronically through the online submission and review site (<https://mc03.manuscriptcentral.com/jees>). For the first submission, you may be required to create an account on the submission site. A manuscript can be submitted at any time of the year. When submitting a manuscript, authors need to make sure that their manuscripts do not provide any of their identities such as authors’ names and affiliations as the review is double-blinded. More detailed submission instruction is available in the upper right corner of the submission site. All manuscripts submitted to the Journal must comply with the instruction and the standard format of the Journal. Otherwise, it will result in return of the manuscript and possible delay in publication. For assistance, please contact us via e-mail ([admin-jees@kiees.or.kr](mailto:admin-jees@kiees.or.kr)).

### **IV. Peer Review Process**

The manuscript will be forwarded to three reviewers selected for their expertise in the field of the submitted manuscript. The acceptance criteria for all papers are based on the quality and originality of the research and its clinical and scientific significance. During the review process, the author is often asked to expand, rewrite, or clearly explain the specific contents of his/her paper. It is not uncommon that an author is asked to provide another draft with the suggested changes for further review. A revised manuscript should be submitted to the homepage within a month from the date on which any change of the manuscript is requested to the author. Once a manuscript has received the final approval of the reviewers and Editor-in-Chief, the author will be notified and asked to prepare the manuscript for final publication and to possibly complete an additional information form.

### **V. Publication Type**

The papers are classified into five categories.

**Regular Paper** should be an original work that contributes to the academic interests of the KIEES members with technical values. The paper should also be written within 12 pages with A4 size including figures, charts, and tables (The main body of text consists of two columns).

**Letter** consists of reports of preliminary results or short reports on completed work that are of current interest to many researchers in the field. Comments on material previously published in the journal, suggestions for new directions, and errata could be included. Their length must be less than 3 pages (with a two-column format) including paper title, author affiliation, reference, etc.

**Review Paper** will be published by direct submission as well as from invited experts. In both cases, the work will be subject to editorial review. Review papers should critically review topics not only to inform the reader of the background, but also to communicate the state of the art and outstanding research problems.

**Technical Report** is on innovative technical achievements of interest to the community and usually a report of an extensive series of measurements. Report is often involving display in the form of tables or graphs, with text describing the conditions and procedures of measurement.

**Editorial** is a brief report of research findings adequate for the journal’s scope and of particular interest to the community.

### **VI. Manuscript Preparation**

All manuscripts must be written in MS-Word and adhere to the following guidelines:
